Abe Krash

FROM: Horace R. Kornegay

In view of the discussion which we have had about T.I.T.L. running the "tar" and nicotine test on little cigars, I conferred with Mr. Brauninger of the FTC. He advises me that he personally knows of no reason why the Commission lab should continue to run "tar" and nicotine tests on little cigars, but the policy on this matter will be made by the Commission itself and, as of this time, the Commission has not set any policy. He has agreed to advise me immediately of any action taken by the Commission with reference to the continuation of the testing of little cigars.

I suggest that we hold in obeyance any decision with reference to T.I.T.L. running tests on little cigars until after we learn what the Commission's policy is to be.
